SCHOOL CLEANING SERVICES

MAKING THE GRADE

Schools are held to a high standard of sanitation, and for good reason.

Our green cleaning program keeps classrooms pristine while protecting students from dangerous chemicals.

Armed with HEPA filter vacuums, Green Seal Certified disinfectants and microfiber towels, we put safety and sustainability first.

COMPLETE DISINFECTION

For **complete disinfection**, we offer the PS 4/7 Misting System, which safely and effectively sprays high-touch surfaces to fully disinfect everything. Some benefits of this system include:

- Kills fungal spores for up to 7 months
- Disinfects high traffic touch points
- Increases personnel attendance
- Safe for use on **any** surface
- Sanitizes hard-to-reach areas
- CRI approved to sanitize carpet
- Eliminates odors
- No VOCs - no smell left behind

SAFETY FIRST

Keeping a school clean isn't just about maintaining your image, it's also about protecting students from dangerous microbes. That's why we **always** use Purrell Healthcare Disinfect Sanitizer for all cleanings, sanitizing wipes, microfiber towels, HEPA vacuum cleaners, and certified disinfectant cleaners.

- **RAPID KILL TIME:** 30-second disinfection for MRSA, VRE, and Norovirus.
- **PURRELL TOUCHABLE:** No precautionary statements or hand washing required. No harsh fumes.
- **EASY TO USE:** Broad-spectrum 1-step spray disinfectant and cleaner.
- **MULTI-SURFACE PERFORMANCE:** Proven performance across most hard and soft surfaces in dental, pediatrician, schools, physicians' offices, patient waiting areas, staff areas, and examination rooms.
- **FORMULATED FOR FOOD CONTACT SURFACES:** No rinse required on food contact surfaces.
